Lithographic Print

Do you need Lithographic Print, or Digital Print? A question we regularly hear. Your choice depends on 3 factors. Speed, Quality, Quantity. Our lithographic press is our highest quality machine, and ideally suited to run lengths of 300 and above. It does however take a little more time to print than the digital machines you will see in the shop.

Stationery

Prices refer to our standard stationery papers.

100gsm for letterheads & comps. 400gsm for business cards

Details of alternative papers on request. All printed in full colour. Subject to VAT
